

RescuePals

RescuePals is an NFT-based browser game where characters and items are created from real-world actions of animal welfare. In-game events trigger real-world benefits for animals!

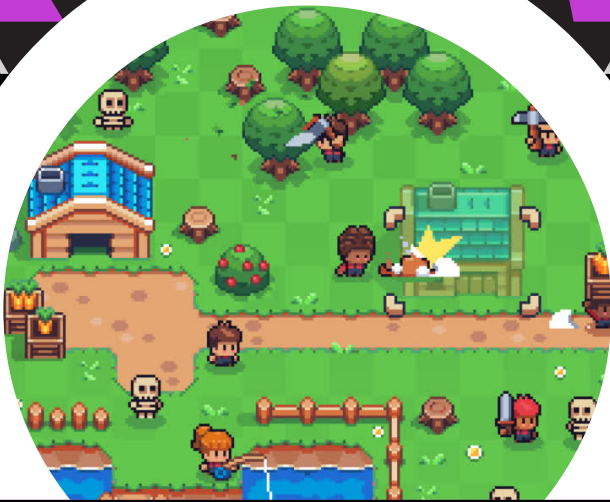

Multi-Chain Digital Twins

Each RescuePal NFT is uniquely created from actual animals rescued and receives a randomized set of in-game characteristics.

Real-World Impact

75% of project revenue is routed to charity partners and animal welfare causes, all transparently and independently verified.

Play-to-Aid

Explore the expanding in-game world of Pawtopia while helping real animals to level up your RescuePal, earn NFT collectibles and more.

Can you collect them all?
